

## **PTO GIFTS PROGRAM**

### **Requests for PTO Funding 2017-18**

---

Any teacher, parent, or student who has a request for funds from the PTO must fill out this form. Please answer these questions as thoroughly as possible, providing supporting detail and information. When completed, please return to the administration at either school by **Monday, October 23, 2017**.

---

#### **1. Define your request:**

**The Design Studio is full of wonderful opportunities for students. Students are able to imagine, create, and collaborate together to build projects for Robotics Class, Entrepreneurship Class, or even Makerspace time. While students have access to great materials like sewing machines and 3D Printers, there is one important thing we are missing when it comes to making: TOOLS!**

**The Design Studio is requesting funds to build up the tool selection available to students. Our current tool selection is one hammer, two phillips screwdrivers, and three measuring tapes. I would like to give students the opportunity to become true hands-on learners by giving them the literal “tools” to build!**

**This request is for two different tool kits. The first tool kit is a DEKOPRO 168-piece Combination Mixed Tool Set. I am seeking two quantities of this set so that multiple students can have access to the tools in this kit at the same time. The other kit is a 26-piece tool kit that includes a cordless drill. All students will need to seek teacher approval before using any of these tools and will be monitored under teacher supervision while tools are in use. In addition, students will receive safety instruction on how to use each tool.**

#### **2. Amount requested:**

**The total amount for this request is \$229.97.**

**The breakdown of cost can be seen in the screenshot below (another pricing option is listed in question 9):**

Shopping Cart		Price	Quantity
	<b>DEKOPRO 168pcs Socket Wrench Auto Repair Tool Combination Package Mixed Tool Set Hand Tool Kit with Plastic Toolbox Storage Case (168PCS)</b> by DEKOPRO <small>Only 8 left in stock - order soon.</small> <small>For Kim's Wish List</small> <small>prime</small> <small>Gift options not available. <b>Subtotal (3 items):</b>		<b>\$229.97</b>	

**3. Can this project be funded in stages? If yes, what timetable is involved? If no, please explain your due date for funds.**

**Yes, we would be able to get the tool sets one at a time if needed. The goal is to have the Design Studio fully stocked with tools by the end of the school year.**

**4. Has this request been reviewed by the school administration? What was their response as to its merit and priority?**

**Yes, Dr. Sukenik has reviewed this request and believes this request will help to give all students access to materials that will enhance their educational experience during all classes in the Design Studio and during Makerspace time.**

**5. Number of Students that will be impacted or benefit from your request:**

**All students in the school would benefit from this request. Every student has access to the Design Studio, both through exploratory computer science classes and through Makerspace time.**

**6. Is this a one-time request or do you envision needing additional PTO funds in the future or long range? If you will require additional PTO funds, please explain why this cannot be added into your annual budget.**

**This is a one-time request for tools that will hopefully last us for many years to come.**

7. What is the intended goal of your request? Would it have any other uses or applications? Is this a start up program or is it enhancing an existing program? Use additional paper if needed.

The intended goal of this request is to equip the Design Studio with tools that can be used throughout all classes that take place in the Design Studio and Makerspace time. This will enhance our existing programs and will allow students to build better-quality projects and learn the real-world skill of using tools.

8. What are the long range benefits of your request?

Students will be able to start thinking on a larger scale for their projects in class, as well as during Makerspace time. Larger scale, students are given the opportunity to think more critically and creatively. In addition, students will gain real-world experience of using tools safely and effectively to build.

9. If you are requesting a capital asset/investment, please provide a minimum of two options/pricing quotes on the item and attach to this form. Please identify your first choice and why.

Option 1 Pricing is from Amazon. The reason for this is that it includes more tools per set when compared to the sets from Home Depot. Screenshot of pricing is here:

		<b>Total</b> <b>\$224<sup>93</sup></b>		

**10. Have you exhausted all other funding options before coming to the PTO Gifts Program?**

**While there is still some funding left in the Design Studio budget for this year, those funds will be going toward additional technology for student use, as well as required materials for student curriculum. Because of this, there would be no other streams of funding left to enrich the classroom with tools.**
